

NOTICE OF POLITICAL STRIKE

AGAINST YOUR PARTY AFFILIATION

Dear _____,

I am writing today to inform you that I have joined a national strike against the Republican and Democrat parties.

I see them both as illegitimate parties rampant with corruption, collusion and incompetence that are responsible for vast amounts of human and ecological carnage in the US and around the world.

Pervasive depression, addiction, suicide, mass incarceration, chronic disease, international massacre, genocide, modern-day slavery, homelessness and ecological destruction are amongst the evidences I point to as failures of the Republican and Democrat parties.

It is likely that your association with the two-party system thus far has been an asset to your political career. I am here to inform you that going forward it is a liability. The two parties are already crumbling as the rising generations are clearly awake to our broken system and this is your invitation for an exit that further engenders you to the majority of Americans, specifically the rising voting majority Millennial generation.

According to my strike, I will not vote for a Republican or Democrat candidate ever again. If you do not want to be a target of my strike, here are my demands:

Sign the New Declaration of Independence

In a public statement:

Affirm that you have signed The New Declaration of Independence

Renounce your association with the [Republican or Democrat] party

Denounce the corruption, collusion and carnage of the two-party system

You can create alternative ballot access for yourself for the next election cycle which could entail running on any other party platform, gaining independent ballot access, or running as a write-in.

I am prepared to do everything in my power to encourage other people in your electorate to join me in this strike and not vote for you, and strike against your party affiliation, until you meet our demands.

Some of the components of the strike you can expect include:

- Demonstrations in front of your office
- Demonstrations outside of your home
- Phone calls to your office
- Letters to your office
- Request for meetings to discuss this strike
- Social media posts and memes about your complicity in the corruption, collusion, and carnage of the two-party system
- Sharing our strike and seeking support and endorsement from faith-based institutions, civil servants, local clubs, business associations, school administrators, and the general public
- Posting flyers with information about the strike and your affiliation with the two-party system
- Making and sharing videos tying you to the carnage of two-party system
- Seeking alternative candidates outside the two-party system to support, campaign for and elect

Our intent is to make it as challenging for you as possible to get re-elected if you do not meet our demands.

There is no context for you to claim innocence while standing on the platform of a corrupt party. You are guilty by association. Redemption, however, is one signature and statement away.

This is a moment in time for the people to rise up and reclaim our republic from the control of the two-party system and we invite you to stand with the people as we undertake this revolutionary strike.

The historical record will show how quickly or recalcitrantly you aligned with the people to abandon an illegitimate political system. Your delay or inaction will signify your active complicity with the two-party system and will likely end your political career, as the millennial generation is committed to ending the two-party system as its first unified political act as a generation stewarding the nation as the new voting majority.

You can expect the strike to continue intensifying until these demands are met. If you comply, you will be celebrated by our movement as one of our heroes.

We are doing this because we don't believe it is possible to create a just, free and healthy society under the tyranny of two-party control and I am standing as a revolutionary to reclaim our government of, by and for the people.

I am not against you. I am for you, for our nation and for our world, therefore I must be against your party affiliation as an act of dismantling our current two-party system.

Sincerely,
